## Attention All Budding Artists !

The Crystal Coast Tourism Authority and the Carteret County School System are excited to team up again this year for the 2nd annual

# Crystal Coast School Art Project!

The idea behind the tourism themed art project is to enhance your understanding of Carteret County's economic need for tourism, and provide county-wide display of your art work. Last year, area 4th grade, 8th grade and high school students created beautiful works of art that have been enjoyed by many residents and visitors to the Crystal Coast!

We encourage you to explore your creative talents, and participate in these fun and challenging art projects!
