Now you are ready to add your student (s).

- 1) Login using the **same** email and password you just used to register for Parent Access.
- 2) Next, you will click Add Student

You will need to know your student's username and password. They can provide you with this information.

username = year of graduation, first initial, last name

password= last five digits of their student number which can be found on their student schedule

If not, you will need to send an email to pat.wiseman@carteretk12.org or julie.perry@carteretk12.org (not both – please) with your email address and your student's name. They will grant access to their account so that when you login, the student(s) name will automatically appear.

Please remember that you must login to the Parent Access page at: <https://parents.mygrades.com/> in order to see the link to your student(s).
