

## Carteret County Schools Graduation Project **SELF EVALUATION**

---

You are to evaluate yourself and your project. Be as complete and descriptive as possible. This self-evaluation should give a clear picture of what you accomplished in your project. Using the format below, provide a typed, clear description and account for all twelve items on the self-evaluation.

1. Describe your project and the steps you performed to complete it. What did you produce or perform?
2. Explain how the project challenged you. Describe any time or resource challenges or problems you faced.
3. List and describe 5 to 8 fundamental ideas, concepts, or skills of your project area which you learned during the project.
4. List and describe problems you encountered in completing your project and how you solved each.
5. How does your completed project compare to the picture you had in your mind when you started it?
6. If given the opportunity, what would you do differently based upon your Graduation Project experience?
7. Describe the “stretch” that you experienced in completing your project.
8. Beyond the project itself, what did you learn about yourself?
9. What grade would you give yourself on the project? Justify your answer.
